Husqvarna K 760 Cut-n-Break

Our Cut-n-Break method is the natural choice when you need to cut deep without overcutting at the corners. The K 760 Cut-n-Break enables you to cut as deep as 16" from one side. The two high-speed blades make a core in the saw cut, which can then easily be broken off using the accompanying breaking tool. This way you easily work your way through the material, at a very low diamond tool and maintenance cost. Delivered with twin blades and a breaking tool.

- Cutting depth, max

400 mm

- Blade diameter, max

230 mm

- Output power

3.7 kW

Daily exposure A(8) m/s²

FEATURES

Want to take a closer look? Learn more about the product in depth by exploring its features and benefits.

Cost-efficient cutting method

With the unique cut-n-break method you can work your way through the material step-by step at a low tool cost.

Exceptional cutting depth

The long body and double cutting blades allow you to make cuts up to 16" deep.

High performing blades included

Twin blades, with a very stable core and cutting performance are delivered with the machine.

Optimized engine performance

Optimized engine performance through efficient cylinder design, digital ignition system and X-Torq® engine technology.
